

# ALEX OYEBAMIJI

Frontend Engineer

Lagos, Nigeria | [alexferanmi390@gmail.com](mailto:alexferanmi390@gmail.com) | +234 (812) 050-6478 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## SUMMARY

Frontend engineer building reliable, high-performance user interfaces for complex applications. Experienced in creating scalable components, managing state, and handling async data with consistent behavior. Strong focus on clean UI, performance, and building stable, maintainable frontend systems.

## TECHNICAL SKILLS

Languages: TypeScript Javascript,

Frontend Frameworks: React, Next.js, Vue.js, Nuxt.js, Gsap, Motion

State & Data: Redux, Zustand, TanStack Query, Context API

Tooling: Git, Github, TanStack Query, Context API

## EXPERIENCE

**Frontend Engineer** · **Huele Bien** · Lagos, Nigeria Jan 2025 – Dec 2025

**Stack:** *Next.js · Supabase · Prismic · TailwindCSS*

- Built and maintained a full e-commerce platform using Next.js, Supabase, and Prismic CMS for product/content management.
- Integrated Prismic slices to streamline product uploads, inventory management, and dynamic content editing for non-technical store admins.
- Achieved steady usage growth: 300 weekly unique users and 2k+ weekly API requests.
- Enabled business transactions totaling 16.2M in processed order volume.

**Frontend Engineer (Contract)** · **Vantik Labs** · UK (Remote) Oct 2024 – Jan 2025

**Stack:** *Next.js · TypeScript · Zustand · Motion · TanStack Query*

- Delivered the complete frontend for Vantik Labs first product, Bethelflow, working closely with engineers and designers.
- Implemented secure authentication flows and integrated backend APIs to support and power core product features across the application.
- Built and shipped user and admin dashboards, landing pages, and both static and dynamic application pages with a focus on performance and usability.

**Frontend Engineer** · **Trip Value** · Lagos, Nigeria Jan 2022 – Sept 2024

**Stack:** *React.js · TailwindCSS · TanStack Query*

- Optimized frontend performance and security across key pages, contributing to reduced load times and improved overall user experience.
- Worked closely with engineers and designers to design and implement a responsive logistics dashboard supporting real-time operational visibility.
- Refactored legacy components and introduced modern development tools, improving code maintainability and reducing recurring bugs.

## PROJECTS

**[Aqua Resist](#) — Water Resilience and Sustainability Platform [External-Link-Alt](#)** — Nextjs,

TailwindCSS, MDX, Motion

Built a responsive web platform for Aqua Resist, promoting sustainable engineering and water resilience.

**[Capturedbydre](#) — Photography Portfolio** — Nextjs, Firebase, TailwindCSS, Motion

Designed and developed a visually rich photography platform

## EDUCATION

**B.Tech. Anatomy**

Ladoke Akintola University of Technology, Ogbomoso, Nigeria

**Fullstack Nanodegree**

Udacity
